

# Flipbook Shot List

## *fitness & fashion, one session, many reels.*

Film the bank once. Recombine it into a new reel every time — new song, new order, no new footage needed.

ASPECT RATIO  
**9:16**

PER SNAPSHOT  
**1.5–2s**

SNAPSHOTS / REEL  
**10–14**

TOTAL LENGTH  
**18–25s**

### Editing recipe

- 1 Pick audio with a sharp, clear beat first — the format lives or dies on the music.
- 2 Drop 10–14 clips on the timeline in your chosen order.
- 3 Trim each clip to 1.5–2s, snapped so the cut lands on a beat/snare hit.
- 4 Hard cuts only — no fades, no slide transitions.
- 5 Text overlay on the first clip (hook) and the last clip (brand tag/CTA) only.
- 6 End on one extra beat: brand cream background + wordmark, ~1s.

#### FASHION

- ☐ Full-body static outfit shot
- ☐ Detail close-up — shoes, watch, logo tee
- ☐ Candid adjust — collar, jacket, sleeve

**The recycling trick:** one "gym day" + one "fashion day" fills the whole bank. Every reel after that is just a new 10–14 pick, new order, new song — until the bank feels stale and it's time to refresh it.
